Gentlemen:

SUBJECT: REPORT NO. 50-302/84-26

On September 1 - 27, 1984, NRC inspected activities authorized by NRC Operating License No. DPR-72 for your Crystal River facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection revealed no violations of NRC requirements. However, certain activities having safety significance appeared to deviate from a commitment to the NRC as discussed in your letter to Mr. James P. O'Reilly from Ms. Patsy Y. Baynard dated May 18, 1984 concerning Violation 84-09-05. The deviation and elements to be included in your response are presented in the enclosed Notice of Deviation.

Your attention is invited to unresolved items identified in the inspection report. These matters will be pursued during future inspections.

In accordance with 10 CFR 2.790(a), a copy of this letter, its enclosures, and your reply will be placed in NRC's Public Document Room upon completion of our evaluation of the reply. If you wish to withhold information contained therein, please notify this office by telephone and include a written application to withhold information in your response. Such application must be consistent with the requirements of 2.790(b)(1).

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,
