SUPPLEMENTAL STATUS REPORT OF INTERVENORS
BRIDGET LITTLE ROREM, ET AL.

Intervenors Bridget Little Rorem, et al., by their under-
signed counsel, hereby submit the following supplemental status
report pursuant to the Board's Order of February 6, 1985:

1. With respect to previously admitted contentions, inter-
venors agree to the schedule and, as stipulated, the revised
wording of contentions, in the form to be submitted to the Board
by NRC Staff counsel.

2. In addition, intervenors Rorem et al. are preparing a
motion, for submission within one week of this date, for leave to
file additional (late-filed) contentions. At least some additional
contentions will be based directly on the NRC CAT Team Inspection
50-456/84-44, 50-457/84-40, transmitted from the NRC to Edison by
letter dated February 20, 1985. See generally Duke Power Co.
(Catawba), 18 NRC 1041 (1983). This detailed and voluminous
report was received by intervenors within the last week. Inter-
venors' motion will propose a schedule for litigation of such
contentions which is consistent with Edison's contemplated fuel
