Subject: [External_Sender] RE: SUBJECT: security envelope attached - Amended License and Cover Letter
Date: Thursday, April 9, 2020 10:34:46 AM

Hello Betsy,

I reviewed the amended licence and have a few comments:

- 1) The source models (C-170, C-171) are missing from condition 10.A - Gammacell 100
- 2) The formatting of the typed line for condition 10.D - Theratron B, F needs to separate C-146 from the device model (ie. Theratron B, F C-146, C-151) to avoid confusion.
- 3) An asterisks note (*) that was listed under license condition 10 is missing from this amended license:

" * or sealed source as designated on customer's license"

This asterisks should be applied to ALL sealed source model numbers listed in Condition 10.B - 10.D. It appears this small detail was missed when amendment 8 (2015) was issued, when the format switched from portrait paper to landscape paper.

Please advise if these can be corrected. Thank you.

Subject: SUBJECT: security envelope attached - Amended License and Cover Letter

This message has a PDF encrypted and password protected envelope attached. The envelope contains your amended license and cover letter.

Please send me an email with a number where you can be reached when you are ready to open the envelope, so I can provide you with the password. Alternately, you may call my NRC cell phone 240-704-4575 to obtain the password to open the security envelope and its license and letter. You will not be receiving a paper copy of these documents in the regular mail. You should save copies of these documents, either in electronic format or paper, for your records.

Betsy Ullrich
