Modified Amended Security Plan

Gentlemen: .

Enclosed are five (5) copies of the Modified Amended Security Plan for the Beaver Valley Power Station, Unit No. 1. The purpose of this submittal is to update the plan submitted on May 23, 1977 to incorporate the various amendments that have resulted from discussions with members of your staff.

This plan is submitted as a proprietary document in accordance with the provisions of 10CFR 2.790(d) and is, therefore, exempt from public disclosure.

We have included a supplement to this plan which identifies certain items of hardware which will not be installed until the end of this calendar year.

Compensatory measures have been adopted in each instance to assure that this plan is in full compliance with the requirements of 10CFR 73.55 subject to the requests for relief numbers 1, 3, and 4 as identified in our May 23, 1977 submittal. These requests were subsequently approved by members of your staff at a meeting held at the Beaver Valley Power Station on July 1, 1977.

If you have any further questions in this matter, please contact my office.

Very truly yours,

C. N. Dunn
