ARTHUR E. LUNDVALL, JR.
VICE PRESIDENT
SUPPLY

January 28, 1985

U. S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Washington, D. C. 20555

ATTENTION: Mr. James R. Miller, Chief
Operating Reactors Branch #3, Division of Licensing

SUBJECT: Calvert Cliffs Nuclear Power Plant
Unit Nos. 1 & 2; Docket Nos. 50-317 & 318
Inservice Inspection Program; Pump and Valve Testing

REFERENCE: (a) Letter to Mr. R. A. Clark, from
Mr. A. E. Lundvall, Jr., dated July 22, 1982

(b) Letter to Mr. J. R. Miller, from
Mr. A. E. Lundvall, Jr., dated March 6, 1984

Gentlemen:

References (a) and (b) requested extension of the Calvert Cliffs Unit 1 inspection interval from May 8, 1985 to April 1, 1987. It was BG&E's intent that the interval extension would apply to all phases of the ASME Code Section XI Inservice Inspection Program, including both Inservice Inspection (ISI) and Inservice Testing (IST) of pumps and valves.

During subsequent discussions with Mr. D. H. Jaffe, NRC Project Manager, he indicated that a separate request would be required for extension of the interval for Inservice Inspection of pumps and valves. We are, therefore, herein requesting extension of the current Unit 1 IST program interval to April 1, 1987. On April 1, 1987, all phases of the Inservice Inspection Program, both ISI and IST, for both Units 1 and 2, would then be updated to the approved Code as specified by 10 CFR 50.55a.

As stated in references (a) and (b), the purpose for requesting an extension of the ISI program interval was to reduce procedure duplication and confusion of Code requirements between Calvert Cliffs Units 1 and 2 by updating both to the same edition and addenda of ASME Code Section XI. Similarly, by updating both Units 1 and 2 IST programs to the same edition and addenda of the Code it will serve to eliminate confusion and procedure duplication for BG&E, the Authorized Nuclear Inspection Agency, and the USNRC. The Unit 1 testing of pumps and valves will continue to adhere to the current Code requirements and existing exemptions until April 1, 1987.
