Gentlemen:

Subject: Inspection 50-219/78-30

This refers to your letter dated January 30, 1979, in response to our letter dated January 5, 1979.

Thank you for informing us of the corrective and preventive actions documented in your letter regarding Items A, B, C, D and F shown in the Notice of Violation enclosed with our letter of January 5. These actions will be examined during a subsequent inspection of your licensed program.

With regard to your response to Item E of the Notice of Violation, we have concluded that the information provided in your letter sufficiently supports your contention that Item E is not an apparent item of noncompliance. We are hereby withdrawing Item E as an item of noncompliance as it is stated in the Notice of Violation. With the exception of Item E, we conclude that the remaining items of non-compliance did occur as stated in the Notice of Violation.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, documentation of findings of your control and accounting procedures for safeguarding special nuclear materials and your facility security procedures are exempt from disclosure; therefore, the referenced letter will not be placed in the Public Document Room.

No reply to this letter is required; however, should you have any questions concerning this matter, we will be pleased to discuss them with you.

Sincerely,
