

LONG ISLAND LIGHTING COMPANY

SHOREHAM NUCLEAR POWER STATION

P.O. BOX 618, NORTH COUNTRY ROAD • WADING RIVER, N.Y. 11792

March 13, 1979

SNRC-365

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

SHOREHAM NUCLEAR POWER STATION - UNIT 1
DOCKET NO. 50-322

Dear Mr. Denton:

On February 5, 1979 via SNRC-357, LILCO submitted additional information clarifying a number of SER open items and confirmatory issues. Consequently, it was agreed that a subsequent submittal would be made which would provide additional information relative to several other SER open items and confirmatory issues.

In accordance with this agreement, enclosed herewith are fifteen (15) sets of the additional information provided in response to those requests for SER open items numbered 2, 9, and 20 plus confirmatory issues numbered 1, 15, 16, and 17. A subsequent submittal will be made on or about March 15, 1979 which will provide additional information in reference to SER open item #5 and confirmatory issue #8.

In addition, we are enclosing (1) additional information demonstrating reactor recirculation pump seal integrity; (2) an amended version of item #5 which was included in our submittal of July 21, 1978 (SNRC-305) with changes as noted relative to the seismically analyzed equipment drain tank; and (3) an amended version of DAR Table 9-21 previously submitted on December 18, 1978 (SNRC-347) with changes as noted.

Very truly yours,

J. P. Novarro,
Project Manager
Shoreham Nuclear Power Station
