Dear Mr. Creel:

Subject: Combined Inspection Nos. 50-317/92-22 and 50-318/92-22

This letter refers to the safeguards inspection conducted by Mr. R. J. Albert of this office on August 17 - 21, 1992, at Lusby, Maryland, of activities authorized by NRC License Nos. DPR-53 and DPR-69 and to the discussion of our findings held with Mr. L. Gibbs and other members of your staff by Mr. Albert at the conclusion of the inspection.

Areas examined during the inspection are important to public health and safety and are described in the NRC Region I inspection report which is enclosed with this letter. The inspection consisted of selective examinations of security procedures and representative records, interviews with personnel and observations by the inspectors.

We found that your physical security program is effective and directed toward assuring public health and safety. Based on several program enhancements, management support for the program was evident. No safety concerns or violations of regulatory requirements were identified.
