JAN 10 1985

Florida Power Corporation  
ATTN: Mr. W. S. Wilgus  
Vice President Nuclear Operations  
P. O. Box 14042, M.A.C. H-2  
St. Petersburg, FL 33733

Gentlemen:

SUBJECT: SCENARIO FOR 1985 CRYSTAL RIVER EXERCISE: DOCKET NO. 50-302

Thank you for providing the scenario for the Crystal River Emergency Preparedness Plume Exposure Exercise scheduled for January 30, 1985. It was noted that the scenario objectives were changed to clarify inclusion of the major exercise functions of accident assessment and mitigation which were listed in your letter of November 16, 1984, as elements which may be simulated or partially exercised, but not intended to be tested as part of the exercise. This clarification is consistent with the telephone conversation on December 5, 1984, between representatives of the FPC and NRC Region II staffs in which your staff agreed to clarify the scope and objectives for the scheduled exercise. The submittal appears to fulfil the minimum requirements for the exercise.

Any additional comments that we may have on details of the exercise will be transmitted to your corporate emergency coordinator by telephone.

If you have any further questions on this matter, please let me know.

Sincerely,

Virgil L. Brownlee, Chief  
Reactor Projects Branch 2  
Division of Reactor Projects.

cc: E. M. Howard, Director  
Site Nuclear Operations  
P. F. McKee, Manager  
Nuclear Plant  
G. R. Westafer, Manager  
Nuclear Operations  
Licensing and Fuel  
Management

bcc: State of Florida  
Senior Resident Inspector
