Mr. George C. Creel
Vice President - Nuclear Energy
Baltimore Gas and Electric Company
Calvert Cliffs Nuclear Power Plant
MD Rts 2 and 4, Post Office Box 1535
Lusby, Maryland 20657

Dear Mr. Creel:

Subject: **EMERGENCY PREPAREDNESS (EP) INSPECTION 50-317/50-318/92-20**

Enclosed is the report of the August 17-19, 1992 inspection, led by Mr. J. Lusher, of Calvert Cliffs Nuclear Power Plant Emergency Preparedness (EP) and of the partial-participation, annual EP exercise. Our inspection findings were based on inspector observations, discussions with your staff, and document review. At the end of the inspection, the preliminary NRC findings were discussed with members of your staff.

Overall, exercise performance demonstrated the ability to protect public health and safety. Exercise strengths included recognition of potential degradations in plant and emergency response facility conditions, diagnosis and mitigation of accident conditions, and deployment of maintenance teams. No violations or exercise weaknesses were identified. Areas for improvement included exercise and scenario control, plant public address announcements, and status board maintenance in the Technical Support Center.

No reply to this letter is required. Thank you for your cooperation.

Sincerely,

James H. Joyner, Chief
Facilities Radiological Safety
and Safeguards Branch
Division of Radiation Safety
and Safeguards
