FOTA 91-579 acc 412-19-91 Mr. Donnie H. Grimsley Division of Rules and Records Office of Administration and Resources Management U.S. Nuclear Regulatory Commission Washington, D.C. 20555

ACT REQUEST

FREEDOM OF INFORMATION ACT REQUEST

Dear Mr. Grimsley

Pursuant to the Freedom of Information Act, 5 U.S.C. 522, as amended and 10 C.F.R. 9.8 of the Commission's regulations, the Nuclear Information and Resource Service requests the following documents regarding Fermi 2, NRC Docket No. 50-341 NRC License No. NPF-43;

- 1.) General Electric Topical Report, NED C-31897P-1 "Generic Guidelines for General Electric Boiling Water Reactor Power Uprate, " June 1991 (LTR1)
- 2.) General Electric Topical Report. NED C-31984P "Generic Evaluations of General Electric Boiling Water Reactor Power Uprate, " July 1991 (LTR2)
- 3.) Fermi 2 Licensing Peport, 91-150 "Power Uprate Safety Analyses for Fermi 2," September 1991
- 4.) General Electric Report, NED C-31982P "Fermi 2 /SAFER/GESTR-LOCA Los- of Coolant Accident," July 1991

Please consider "documents" to include reports, studies, test results, correspondence, memoranda, meet ng notes, meeting minutes, working papers, graphs, charts, diagrams, notes and summaries of conversations and interviews, computer records and any other form of written communications including internal NRC memoranda.

Pursuant to this request, please provide all documents prepared or utilized by, in the possession of, or routed through the NRC related to items 1-4.

Pursuant to and in compliance with 10 C.F.R. 9.41 of the Commission's regulations governing requests for waiver of fees, the Nuclear Information and Resource Service, herein after referred to as NIRS, puts forth the following information.

NIRS seeks the requested information solely to contribute to

and help shape the public debate on nuclear issues.

NIRS intends to use the information in order to advance the

concerns for public understanding and safety.

NIRS is qualified to make use of the requested information. The staff has demonstrated the ability to interpret information and communicate that information in a form comprehensible to the general public. Members of the NIRS staff have published articles in such national journals as The Progressive, Nuclear Times, Newsday and The Bulletin of Atomic Scientists.

NIRS has a working relationship with physicists, engineers, medical doctors and other respected professionals who contribute

to the full understanding of technical records.

The information sought by NIRS, is not, to the best of our

knowledge, in the public domain.

The general public has displayed great interest in nuclear issues and the requested information will certainly increase the

public's understanding of this matter.

NIRS has demonstrated its ability and commitment to inform the public on all important nuclear issues. NIRS regularly publishes a trade journal for which this information will be of use, the Nuclear Moritor . Since 1978, NIRS has been providing information on nuclear issues to the public, the press, members of Congress, state and local government officials as well as hundreds of citizens groups across the country. NIRS provides this information free of charge and has neither a commercial nor a private interest in the agency records sought.

Under the amended fee waiver standard, NIRS is clearly entitled to a full waiver of all search, review and duplication fees. This standard calls for such a waiver, "if disclosure of the information is in the public interest because it is likely to contribute significantly to the public understanding of the operation or activities of the government and is not primarily in the commercial interest of the requester." 5 U.S.C. 552 (a) (4)

(A) (iii).

In light of the foregoing, NIRS' request meets this standard on its face. NIRS has no commercial interest in this matter, but rather seeks this information to help the general public better understand the role of government in regulating the nuclear

industry.

For all the reasons cited above, NIRS' request falls squarely within the Congressional intent in enacting the Freedom of Information Act and the fee waiver provision. We, therefore, ask that the Commission grant a full waiver for this FOIA request.

Thank you for your anticipated cooperation. If you have any questions in regards to this request, please feel free to contact me.

Sincerely,
