Docket No. 50-482

Kansas Gas and Electric Company
ATTN: Mr. Glenn L. Koester
Vice President - Nuclear
201 North Market Street
Post Office Box 208
Wichita, Kansas 67201

Gentlemen:

As you are aware, 10 CFR 170 of the Commission's regulations for license and inspection fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that for applications for permits, licenses, facility reference design approvals, and special projects which have been on file with the Commission for review for six months or longer, the first bill for accumulated review costs would be sent to the applicant at the time the rule becomes effective and thereafter at six-month intervals or when the review is completed, whichever is earlier. The first bill for the operating license (OL) review will include applicable professional staff review time expended through June 23, 1984, and contractual support services expended to May 31, 1984. Subsequent bills covering six-month reviews will be issued approximately ninety days after the end of each six-month period which closes in December and June of each year.

Consistent with the requirements of 10 CFR 170.12(b), we have completed the cost analysis for the Wolf Creek 1 OL application review for the period specified above. The cost through that period is \$2,073,055. The Office of Resource Management has been notified to bill your Company for this amount. When making payment, please make reference to the invoice number on your bill.

Enclosed is a copy of the revision to Part 170 as sent to all applicants and licensees on May 24, 1984.

Sincerely,

[Original Signed by]
[Wm. O. Miller]
