Docket No. 50-382

JAN 24 1985

MEMORANDUM FOR: Files  
 THRU: William O. Miller, Chief, License Fee Management Branch, ADM  
 FROM: C. James Holloway, Jr., Assistant Chief, License Fee Management Branch, ADM  
 SUBJECT: WATERFORD 3 OPERATING LICENSE REVIEW COSTS

10 CFR 170 of the Commission's regulations for license fees was revised effective June 20, 1984. Section 170.12(b) of the revised rule provides that applications for operating license (OL) review which have been pending with the Commission for six months or longer, the first bill for accumulated review costs would be sent to the applicant at the time the rule becomes effective and at six-month intervals thereafter until the review is completed, whichever is earlier. The first bills for OL review will include applicable professional staff review time expended through June 23, 1984, and contractual support services expended to May 31, 1984. Subsequent bills covering six-month reviews will be issued approximately ninety days after the end of each six-month period which closes in December and June of each year.

In accordance with Section 170.12(b), we have reviewed the cost incurred by the various program offices directly involved in processing the Waterford 3 operating license. Attached is a summary of the review costs as well as the supporting documentation from the program offices. The attachment shows that a total of \$4,100,044 was expended through June 23, 1984 for the OL review. The cost of the OL review through June 23, 1984 exceeds the maximum fee of \$3,077,400 as stated in 10 CFR 170.21. In accordance with Footnote 2 of the revised 10 CFR 170.21 and since the licensee received an operating license (5% power) on December 18, 1984, only \$3,077,400 may be assessed for the OL review through issuance of the 100% power license.
