Docket No. 50-285

Mr. R. L. Andrews
Division Manager, Nuclear Production
Omaha Public Power District
1623 Harney Street
Omaha, Nebraska 68102

Dear Mr. Andrews:

SUBJECT: IN-PROGRESS AUDIT OF THE FORT CALHOUN STATION DETAILED CONTROL ROOM
DESIGN REVIEW

By letter dated December 30, 1983, we forwarded to you our comments regarding your program plan for conducting a detailed control room design review (DCRDR). We also stated that an in-progress audit of the DCRDR was not planned at that time but one may be scheduled to observe progress. We have elected to perform an in-progress audit. The audit and the scheduling was discussed with your staff.

Per agreement from your staff, the audit is scheduled for February 4-8, 1985. A tentative agenda was forwarded to your staff under separate cover. We request that you make the following preparations for the audit.

1. Review team personnel (including contractors) knowledgeable in each of the DCRDR tasks should be available to discuss the review process and to respond to staff questions during the meeting.
2. Provide documentation of DCRDR results available to date.
3. Conference or office space should be available for the NRC staff's meeting with OPPD and for the staff and its consultants to meet privately.
4. Access to the control room mock-up should be provided and, if possible, access to the control room itself and to the remote shutdown facilities.
5. Provide clearance to bring camera equipment on site and to take photographs at the mock-up, in the control room, and in other areas which would assist in evaluating the DCRDR.

Preliminary results of the audit will be provided to your staff during the exit briefing. This should enable you to consider our remarks in

PDR ADOCK 05000285
F PDR

preparation of your summary report, which is scheduled for submittal to us on or before April 1, 1985. A formal report covering the results of the audit will also be forwarded to you.

Please contact us if you have any questions concerning this letter.

Sincerely,

/s/
James R. Miller, Chief
Operating Reactors Branch No. 3
Division of Licensing
