 Supplement to Application for Amendment to Facility
 Operating Licenses NPF-11 and NPF-18

Dear Dr. Murley:

In the referenced letters, Commonwealth Edison (CECo) proposed to amend Appendix A, Technical Specification 3.6.1.8 of Facility Operating Licenses NPF-11 and NPF-18 to allow the periodic cycling of VQ valves. The proposed changes would allow the valve actuators to be cycled per vendor recommendation.

The purpose of this letter is to inform your staff of CECo's request to formally withdraw our proposed amendment for LaSalle County Station. We regret any inconveniences this may have caused your staff.

If there are any questions concerning this matter, please direct them to this office.

Respectfully,

JoAnn M. Shields
 Nuclear Licensing Administrator
