In accordance with 10CFR50.4, attached is the original plus three (3) copies (Copy Nos. 1-4) of Revision 25 to the Arkansas Nuclear One (ANO) Industrial Security Plan (ISP). Copies 5 and 6 are being submitted to NRC Region IV. A brief description of the changes made in this revision is included as Attachment 1 and the specific changes to the ISP are shown in Attachment 2.

In accordance with 10CFR50.54(p), it was determined by Entergy Operations that these changes do not decrease the safeguards effectiveness of the plan and, therefore, may be implemented without prior NRC approval.

The attached material describes current and proposed security measures; therefore, Entergy Operations has determined that the attached documentation contains safeguards information as specified by 10CFR73.21. The attached documentation should therefore be handled appropriately.

Very truly yours,

James J. Fisicaro  
Director, Licensing
