Dear Mr. Hill:

SUBJECT: SHOREHAM NUCLEAR POWER STATION, UNIT 1 - ISSUANCE OF AMENDMENT
NO. 9 TO POSSESSION ONLY LICENSE NO. NPF-82 (TAC NO. M84141)

The Commission has issued the enclosed Amendment No. 9 to Possession Only License No. NPF-82 for the Shoreham Nuclear Power Station, Unit 1. This amendment revises License No. NPF-82, and the Technical Specifications to reflect the transfer of license No. NPF-82 from the Long Island Lighting Company (LILCO) to the Long Island Power Authority (LIPA). License No. NPF-82 was transferred from LILCO to LIPA by Order, dated February 29, 1992. This amendment adapts the administrative changes requested in the joint LILCO and LIPA application of June 28, 1990, as supplemented by letters of June 13, June 27, October 31, and December 5, 1991, March 27 and April 10, 1992.

Additionally, the staff finds LIPA's proposal to train and certify the Shoreham fuel handlers in lieu of use of 10 CFR Part 55 licensed operators to be acceptable.

On March 20, 1991, the NRC published in the Federal Register a Notice of Consideration of Issuance of Amendment to Facility Operating License and Proposed No Significant Hazards Consideration Determination and Opportunity for Hearing related to the requested action (56 FR 11781). The NRC has received comments and a request for hearing. In CLI-92-4 (February 26, 1992), the Commission directed the NRC staff to issue an order approving the transfer of License No. NPF-82 from LILCO to LIPA and to amend at the conclusion of the proceedings.

On February 29, 1992, the NRC staff issued an order approving the transfer of Facility Operating License No. NPF-82 from LILCO to LIPA and authorized LIPA to undertake the activities and obligations of the Shoreham license in accordance with the Commission's Memorandum and Order CLI-92-4.

By letter dated June 3, 1992, the petitioners requested permission to withdraw their opposition to the license transfer in accordance with their settlement agreement with the licensee.
