Docket Nos. 50-254/265

Mr. Dennis L. Farrar
Director of Nuclear Licensing
Commonwealth Edison Company
Post Office Box 767
Chicago, Illinois 60690

Dear Mr. Farrar:

SUBJECT: RESPONSE TO NUREG-0737, ITEM II.K.3.18,
ADS MODIFICATION

Re: Quad Cities Nuclear Power Station, Units 1 and 2

By letter dated June 3, 1983, the NRC requested that the Commonwealth Edison Company (CECo) comply with the requirements of NUREG-0737, Item II.K.3.18 by choosing between alternative modifications that the staff has found acceptable.

As a result, CECO submitted letters dated July 18, 1983 and November 2, 1983 that commit the utility to modifying the ADS logic by eliminating the high drywell pressure permissive and adding manual inhibit switches. This modification was found acceptable by the staff and was stated as such in our June 3, 1983 letter to CECO.

Based on your July 18, 1983 commitment, we consider this issue to be closed.

Sincerely,

Original signed by/

Domenic B. Vassallo, Chief
Operating Reactors Branch #2
Division of Licensing
