**SUBJECT: PUBLIC MEETING SUMMARY - LICENSEE PERFORMANCE REVIEW FOR
FRAMATOME INC., DOCKET NUMBER 70-1257**

Dear Dr. Land:

This letter refers to our virtual Skype meeting on April 7, 2020, during which we discussed the Nuclear Regulatory Commission's (NRC's) evaluation of your performance in the five major areas of safety operations, safeguards, radiological controls, facility support, and other areas during calendar years 2018 and 2019. The meeting was beneficial and provided the NRC the opportunity to discuss your facility's performance during the last assessment period. The meeting also afforded you the opportunity to provide feedback to the NRC regarding your perception of the NRC performance review.

The meeting also afforded the members of the public the opportunity to ask questions and provide feedback to the NRC regarding our inspection program for Framatome Inc. Lists of meeting attendees and publicly available documents relevant to Framatome Inc. for the past two calendar years are enclosed. The slide presentation used for the public meeting was a consolidated set containing slides provided by Framatome and the NRC. This slide presentation is available under accession number ML20094F888 in ADAMS.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedure," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
