RE: License No. 13-32726
Docket No. 030-38044

Ms. Forster,

Thank you for your letter. We have begun work on the questions by re-engaged our third-party Health Physicist to help. Unfortunately, it is not likely he will be able to complete his work by April 17, 2020.

Questions 1 thru 4:

As a result of the time needed by our HP and per your suggestion in your letter, we confirm that responses to Questions 1 thru 4 will be submitted withing 30 days, on or before May 11, 2020.

Question 5:

We do request flexibility for updating of procedures submitted in our amendment request and responses.

As requested under question 5, the following is a description of the process that will be used to revise and implement these submitted procedures. When seeking changes:

- 1) Any changes or request for change will be reviewed by the RSO and management to be deemed appropriate.
- 2) Once a change is deemed appropriate, we commit that changes made to submitted procedures will follow the following rules:
 - (1) The revision is not contrary to regulations contained in Title 10 of the Code of Federal Regulations;
 - (2) The revision does not require a license amendment under 10 CFR Part 30;
 - (3) The revision has been reviewed and approved by the licensee's Radiation Safety Officer and management;
 - (4) The affected individuals are instructed on the revised procedures before the changes are implemented;

SpectronRx

- (5) The licensee shall retain a record of each change for 5 years; and
- (6) The record will include a copy of the old procedure, the new procedure, the date of the change, and the signature of the licensee management representative who reviewed and approved the change.”

Please feel free to contact me with any questions at 317-459-8315 or my email JZehner@SpectronRx.com.

Sincerely,
