SEP 10 1992

Docket No. 50-186

University of Missouri
Research Reactor Facility
ATTN: Walt A. Meyer, Jr.
Reactor Manager
Columbia, MO. 65211

Dear Mr. Meyer:

This letter acknowledges receipt of your letter dated August 3, 1992, which transmitted a change to the Physical Security Plan for the University of Missouri (Columbia) Research Reactor Facility submitted under the provisions of 10 CFR 50.54(p).

We have reviewed the submitted changes and have determined that they are consistent with the provisions of 10 CFR 50.54(p) and are therefore acceptable, except as noted below.

Section 2.1.1(a) should include the circumstances when the combination to the reactor containment door will be changed when containment is a temporary Controlled Access Area. The commitment in section 2.1.1(a) of the April 18, 1988 revision to the security plan would be adequate for this purpose.

This issue was discussed with you and Mr. D. Carlson of NRR/RSGB on September 9, 1992. You are requested to submit the above change to the security plan within two months after receipt of this letter.

The enclosure to your letter contained Safeguards Information of a type specified in 10 CFR 73.21 and is being withheld from public disclosure.

The response requested by this letter is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 95-511.
