Mr. Sanford Israel
Reliability and Risk Assessment Branch
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Sandy:

The "letter report" on the review and evaluation of the Indian Point Probabilistic Safety Study is enclosed. The findings reflected in the report should be considered preliminary pending review by yourself and others you may designate. Upon receipt of your comments, we will respond to those comments, perform final editing, and provide the final letter report.

Sincerely,

J. W. Hickman, Supervisor
Nuclear Fuel Cycle Systems
Safety Division
