SUBJECT:

EXTENSION OF TMI-1 SALP ASSESSMENT PERIOD

In order to provide a more current assessment of license performance prior to an NRC Commission decision on the restart of TMI-1 (currently projected for June 1984), we are hereby extending the assessment period by four months, from September 30, 1983 to January 31, 1984. Consequently, the assessment will cover a sixteen (16) month period.

Please review the SALP input you previously provided, update the material as necessary for the four additional months and submit the update to E.L. Conner of my staff by March 16, 1984. If no update of your previous input is required, please advise Mr. Conner (FTS 488-1355) of that fact. We expect to have a SALP Board meeting on April 2, 1984.

Your efforts and cooperation are appreciated.
