Gentlemen:

SUBJECT: SEQUOYAH NUCLEAR PLANT REQUALIFICATION RETAKE EXAMINATION REPORT  
NO. 50-327/92-301

The NRC administered examinations led by Michael E. Ernstes on July 16, 1992, to three employees of your company who currently hold licenses to operate your Sequoyah Nuclear Plant. At the conclusion of the examination, preliminary findings were discussed with those members of your staff identified in the examination report, Enclosure 1. A copy of the written examination questions and answer key, as noted in Enclosure 2, was provided to members of the facility's training staff at the conclusion of the examination.

Due to the small sample size, no requalification program evaluation was made.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this examination, please contact us.

Sincerely,

(Original signed by L. L. Lawyer for)

Thomas A. Peebles, Chief  
Operations Branch  
Division of Reactor Safety
