Dear Dr. ~~Marburger~~: ^{Speis}

As I indicated in our prior conversation, I am enclosing a brief paper giving NRC staff perspectives on some of the risk and emergency preparedness issues that surfaced in the June 28, 1983 meeting of the Shoreham Commission. Its author, Frank Rowsome, will be accompanying me to the July 22 meeting in New York, and will be available to answer questions on it then.

Sincerely yours,

William J. Dircks
Executive Director for
Operations
