July 27 status report supplied separately

MEMORANDUM FOR: Cecil O. Thomas, Chief
Standardization and Special Projects Branch
Division of Licensing

FROM: Brian Sheron, Chief
Reactor Systems Branch
Division of Systems Integration

SUBJECT: BNL STATUS REPORT ON THE REVIEW OF GESSAR-II PRA-
CONTAINMENT FAILURE MODES AND FISSION PRODUCT RELEASE

The attached letter report provides the current status of BNL's continuing review of those areas of the GESSAR-II PRA pertaining to the containment failure modes and fission product release. The purpose of this report is to solicit comment on the present direction of the review and to inform NRC management of the status of the review. The information presented should be considered preliminary and does not comprise a draft evaluation report. Please provide comments on the report to Brad Hardin (x28507) by September 1.
