Note to Jim Shea

SUBJECT: MILLSTONE 1 - LICENSING OPERATOR STAFFING (OELD # 841 771)

I don't understand what this cover letter SER is saying with respect to item #3. I can't tell whether we're saying item #3 is good or bad nor can I tell whether we're approving it or disapproving it. We say that ... except for item #3, the changes are in conformance with the Standard Review Plan and therefore they are okay... Then we say ... With respect to item #3, what they want to do is in conformance with the policy statement but the policy statement is in draft form and we're not in a position to approve the dual role at this time ... We then have the next sentence which says ... Based on the above discussion, we find the proposed changes acceptable ... What are we saying about change #3? I don't understand it at all. Do we find change #3 acceptable? Or, do we find that change #3 is something we can't approve at this time?
