Dear Mr. Lyster:

SUBJECT: INITIAL EXAMINATION REPORT

During the week of August 3, 1992, Mr. D. McNeil and others of this office administered initial licensed operator examinations to employees of your organization who operate your Perry Nuclear Power Plant. At the conclusion of the examination, findings that were identified as a result of the examinations were discussed with those members of your staff identified in the enclosed report at our exit meeting.

Three previously licensed Reactor Operators were given Senior Reactor Operator examinations, and five non-licensed operators were given Reactor Operator examinations. All individuals passed all sections of their respective examination.

The Perry simulator was noted as a major strength in the training program. The simulator performed well in all areas of the examination. For details see Section 3c of the enclosed report. No major weaknesses were noted during the administration of the examination.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosures will be placed in the NRC Public Document Room.
