Docket Nos. 50-369 and 50-370
1992 FSAR Revision

Enclosed are the original and ten copies of the 1992 Revision to the McGuire Nuclear Station Final Safety Analysis Report (FSAR)

The figures and tables in the 1992 McGuire FSAR were moved from the end of each section to the end of each chapter. This change was necessary in order to keep the format of the on-line contextual search FSAR consistent with the hardcopy produced via electronic publishing. This change will also help to simplify future revisions to the FSAR.

Very truly yours,

T. C. McMeekin, Vice President
McGuire Nuclear Station
