

February 21, 1984

Note to Don Neighbors

SUBJECT: SURRY 1 - BORON CONCENTRATION (OELD # 842 239)

This is not acceptable in this form. We noticed this amendment, apparently November 22; yet, the amendment we're acting on was supplemented on November 30, December 19, January 18, and January 25. Each one of those incoming supplements has to be discussed at sufficient length to identify the significance of the incoming supplemental information. The application we gave notice of was dated September 13 and supplemented October 6. If the subsequent submittals in any substantive way modified that application then you need to renotice this package. In such a case we would not be acting on the application as to which we gave notice.
