Note to Al DeAgazio

SUBJECT: DAVIS-BESSE TYPOGRAPHICAL ERRORS (OELD # 839 288)

This package needs a little information added to it. It appears that this is only a few items of a couple of incoming requests. If that is true, then it should say so clearly - something to the effect "... this notice covers only a portion of the changes requested by the applications dated (whatever their dates are or mentioned above). The other portions of these requests will be handled separately ..." You need to add something similar to this to the package. Why don't you draft some words and talk to Mr. Karman about them over the phone and if you and Mr. Karman agree, it does not have to come back to ELD.

for Joe Scinto

cc: M. Karman
