NUCLEAR REGULATORY COMMISSION
REGION III
799 ROOSEVELT ROAD
GLEN ELLYN, ILLINOIS 60137

January 22, 1981

MEMORANDUM FOR: Region III Staff

FROM: James G. Keppler, Director

SUBJECT: PROPOSED REGION III REORGANIZATION

Effective February 15, 1981, Region III is proposing to reorganize. Enclosure I shows the reorganization down to and including the branch level. By January 31, 1981, we will send you the complete reorganization showing all personnel assignments.

The positions shown in Enclosure II to this memorandum will be filled by competitive selections under the Vacancy Announcement System. Until the positions are filled, the individuals assigned to them will serve in an acting capacity. At that time these acting individuals will assume the other positions shown for them unless they are selected for the positions in which they have been acting.

Certain positions will be filled by reassignment. It is not necessary to competitively fill positions when the position is at the assigned person's grade level.

If bargaining unit members have any concerns related to the impact that this proposal may have, such concerns may be relayed to management by contacting the NTEU representative (Chapter Officer or Steward), no later than five (5) work days prior to proposed implementation. In addition, however, employees are encouraged to discuss with their supervisors any matter related to this proposal.

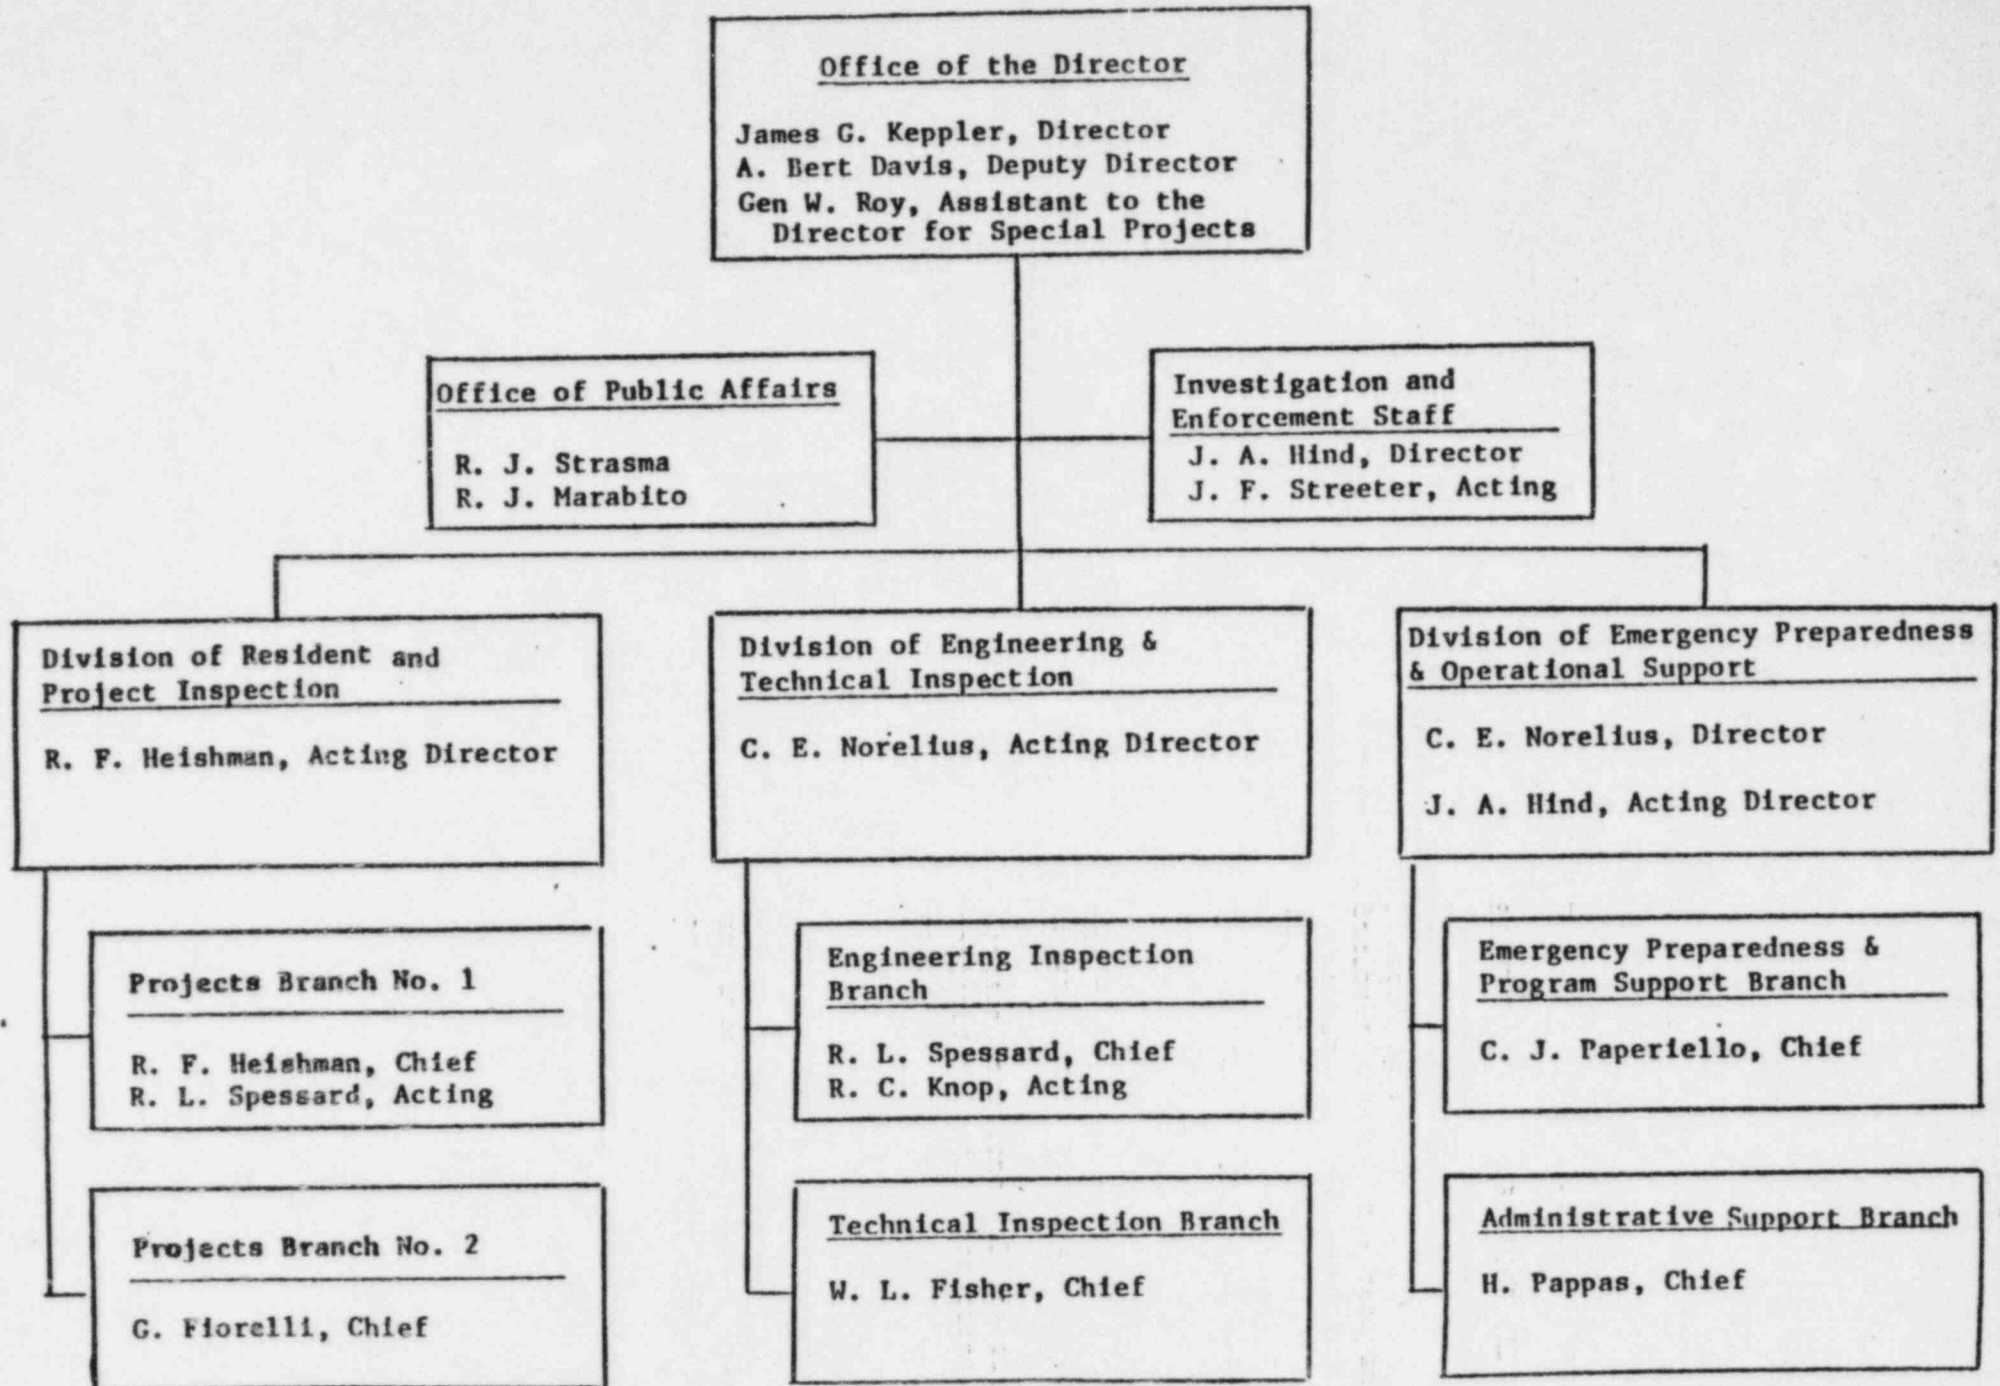

James G. Keppler
