Reference: Letter, 7/8/68, Wuller to Low; subject: report  
of excessive airborne concentrations

Dear Mr. Low:

Please replace the Appendix A to the reference letter with the  
attached Appendix A (revised 7/17/68). This change is necessary  
because a wrong name was inadvertently taken from our operating  
shift schedule and reported as one of the potentially exposed  
employees. We regret any inconvenience this change may cause  
you.

Very truly yours,

KERR-McGEE CORPORATION
