Note to Don Sells

SUBJECT: ST LUCIE 1 - SER (OELD # 842 634)

I do not see the bottom line findings in the conclusion section of this SER. They need to be inserted. Insert the bottom line findings to the effect that we found that the facility can be operated without endangering and that issuance of the amendment is not inimical, etc.

Send the package back to W.Paton with the proper findings included in the SER.
