MEMORANDUM FOR: **Steven A. Varga**, Chief
Operating Reactor Branch #1, DL

FROM: **Brian W. Sheron**, Chief
Reactor Systems Branch, DSI

SUBJECT: SCHEDULE FOR DSI REVIEW OF N-1 LOOP OPERATION
AT BEAVER VALLEY UNIT 1; TAC #10383, MPA E-05

The DSI review of N-1 loop operation at Beaver Valley Unit 1 has involved members of the Reactor Systems Branch (RSB), Instrumentation and Control Systems Branch (ICSB), Core Performance Branch (CPB) and Auxiliary Systems Branch (ASB). RSB has responsibility for coordinating the DSI response.

The review has proceeded to the point where we are confident that the safety evaluation will be complete by March 31, 1984. We will keep you informed if any delays in this schedule are necessary.
