SUBJECT: ENVIRONMENTAL SITE VISIT AGENDA FOR VOGTLE
ELECTRIC GENERATING PLANT, UNITS 1 AND 2

The environmental site visit for Vogtle is scheduled for March 21 and 22, 1984. It is requested that by February 14, 1984, you forward to Melanie Miller, the Vogtle PM, a proposed agenda for your tour(s) to be conducted during this visit. Specifically, your agenda should include what features of the site or surrounding area you wish to see. This information was supplied previously for EHEB by R. Ballard's memo to E. Adensam dated October 20, 1983. It is not necessary for EHEB to forward it again unless changes have occurred. However, all branches should indicate to the PM any special requirements that should be brought to the applicant's attention prior to the site visit such as use of a helicopter. Additionally, all branches should indicate the reviewer(s) who will represent your branch on this visit. If there are any questions, contact Ms. Miller at extension 24259.

FROM: Darrell G. Eisenhut, Director
Division of Licensing

SUBJECT: SCHEDULE FOR OL REVIEW OF VOGTLE 1/2

The purpose of this memo is to advise you of the safety and environmental review schedules for Vogtle 1/2.

The Vogtle FSAR acceptance review has been completed and the application was docketed on September 16, 1983.

Although the application has been docketed, we are requesting that the review not be initiated until February 1, 1984 in order that NRC resources will be utilized efficiently. Accordingly, the enclosed schedule reflects a date referred to as "Initiation of Review".

The schedule for the OL review of Vogtle is included in the enclosure. All the milestones which are included in the NRC monthly report to Congress (Bevill Sub-Committee) are identified with an asterisk. Please provide any other intermediate milestones which may be required in certain disciplines such as emergency planning, security and instrumentation and control systems.

Construction of Vogtle 1/2 is about 60% and 17% complete, respectively, and fuel load is scheduled by the applicant for September 1986.

The safety review questions should be submitted to the project manager by April 15, 1984. Each question should be accompanied by a reference to the applicable Standard Review Plan section.

OFFICE								
SURNAME								54
DATE								

The project manager for Vogtle is Melanie A. Miller located in Room 118 (X24259). Please assure that each of your branches has received all portions of the FSAR or ER necessary for their review and scheduled their review so as to provide their inputs to the Project Manager in accordance with the enclosed schedule.

Darrell G. Eisenhut, Director
Division of Licensing
