

March 5, 1984

Note to Bob Hermann

SUBJECT: 9 MILE PT 1 - ON-SITE ORGANIZATION (OELD # 842 797)

Something needs to be added to the SER. The statement on page 2 that the changes that took place on the telecon on January 12, 1984 were not significant and did not have a significant affect on the amendment as it was previously noticed ... that's a conclusion but you have to have some support for that. The thing that you need to do there is to describe what those changes were - discuss them. Tell people what the changes were so that one can see whether or not they involve significant changes in the substance of the previous amendment.
