Note to M. Thadini

SUBJECT: DUANE ARNOLD - RESIDUAL HEAT REMOVAL SERVICE WATER FLOW REDUCTION  
(OELD # 842 808)

You are using the example of changes consistent with the criteria of the SRP, but you do not describe what criteria, where in the SRP they are to be found, etc. You need to do that if you going to make use of the example of changes that are consistent with the acceptance criteria of the SRP, you have to make sure you articulate what acceptance criteria SRP you are talking about, where they are to be found.
