Washington, D.C. 20555

Dear Mr. Kent:

Louisiana Power & Light's Waterford III nuclear power plant is scheduled for commercial operation in December of this year. I would appreciate your earliest consideration of LP&L's licensing request.

Latest estimates show that each day's delay in attaining full operations will cost LP&L customers an additional \$1.17 million a day or \$36.4 million per month.

Also, I understand that the results of the Commission's recent quality assurance review of the Waterford III facility were most favorable. I would appreciate your assistance in this matter and hearing from you about the results of the review.

Sincerely,

  
BILLY TAUZIN  
Member of Congress
