✓ MEMORANDUM FOR: George W. Knighton, Chief, Licensing Branch No. 3, Division of Licensing

FROM: Olan D. Parr, Chief, Auxiliary Systems Branch, Division of Systems Integration

SUBJECT: SALP REPORT FOR SHEARON HARRIS

We are enclosing our SALP report for the Shearon Harris Plant, in response to your memorandum of May 21, 1984. In the period from February 1, 1983 - April 3, 1984, we have only been involved in the Shearon Harris plant review which included SALP functional Areas 2 and 3 and have thus evaluated the Shearon Harris staff performance only in those areas.

SALP INPUT FOR SHEARON HARRIS FROM ASB

1. Narrative for Functional Area 2, Approach to Resolution

The Shearon Harris staff generally understood the issues involved and utilized conservatism in resolving them. The approaches were generally sound, timely and thorough. Thus, we recommend a Category 2 evaluation for this area.

2. Narrative for Functional Area 3, Responsiveness to NRC Initiatives

The words expressed in the Category 2 criteria, which we recommend in this functional area fit the Shearon Harris applicant. This applicant provides generally timely responses in which there are only a few outstanding issues, and the approaches used by the applicant are generally sound, viable, thorough and acceptable.

We have no comments in Functional Areas 1, 4, 5, 6 and 7.
