

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

December 16, 1983

Docket Nos: 50-424, 50-425

NOTE TO: Vogtle Reviewers (See attached distribution)

FROM: Melanie A. Miller, Project Manager

SUBJECT: VOGTLE FSAR REVIEW SCHEDULE

Attached is the revised review schedule for Vogtle Units 1 and 2 which was finalized November 29, 1983. The initiation of the review has been delayed until February 1, 1984, to allow reviewers with higher priority work to accomplish it in a timely manner. However, reviewers who have time to begin review of the Vogtle FSAR prior to February 1, 1984, are encouraged to do so particularly since the revised schedule allows for only a 31 month review and we fully expect this to be a contested case. Reviewers who have completed their questions are asked to forward them to DL so that I may transmit them to the applicant.

Reviewers should use the attached distribution list as an index to locate primary and secondary reviewers on appropriate SRP sections in their areas of responsibility.

If there are any questions, I can be reached at x24259.
