

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

AUG 26 1983

NOTE TO: Leon Reiter
Steve Brocoum
Jeff Kimball
Dick McMullen

FROM: Bob Jackson

SUBJECT: WNP-3 DRAFT SER

5.

It is my current understanding and expectation that a Draft SER for Geology and Seismology will be completed no later than January 1, 1984. This SER should be as complete as possible and resolve all issues possible, clearly identifying the open issues. It's obvious that quite a bit will be open but also a fair amount, especially in geology can be resolved. A status from Burt Slemmons should also be included since we have told USGS to stop work, we cannot solicit a status report from them but DSER should note that they are reviewing the site also.

A handwritten signature in cursive script, appearing to read "Bob Jackson".
