Reference: Letter dated August 28, 1992, "NRC Bulletin No. 92-01,  
Supplement 1: Failure of Thermo-Lag 330 Fire Barrier  
System to Perform its Specified Fire Endurance Function"  
Subject: Docket No. 50-482: Response to NRC Bulletin 92-01,  
Supplement 1

Gentlemen:

This letter transmits Wolf Creek Nuclear Operating Corporation's (WCNOC) response to NRC Bulletin No. 92-01, Supplement 1, which required licensees to determine all applications of Thermo-Lag 330 in their facilities and implement appropriate compensatory measures in certain applications.

WCNOC Engineering has identified all Appendix R, safe shutdown train separation, applications of the Thermo-Lag material and has issued E-11018(Q) Rev. 01 which lists these applications. In accordance with Administrative Procedure ADM 13-100, "Fire Protection Manual," compensatory measures in the form of fire watches have been implemented for all applications within the scope of NRC Bulletin 92-01 and Supplement 1.

Long term actions to address Thermo-Lag issues are being developed through an industry program coordinated by Nuclear Management and Resources Council (NUMARC).

If you have any questions concerning this matter, please contact me or Mr. Kevin J. Moles of my staff.

Very truly yours,

Bart D. Withers  
President and  
Chief Executive Officer
