NUREG-0737, Item II D.1, Performance  
Testing of Relief and Safety Valves

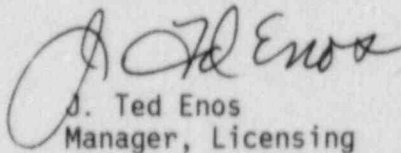

Gentlemen:

In your letter numbered ØCNA128414 dated December 18, 1984, you requested additional information relating to the tests performed on relief and safety valves in 1982.

Because of the complexity of your request, the time elapsed, and the fact that personnel immediately responsible for monitoring those tests have moved to other positions we are asking, in accordance with our phone conversation with NRR Project Managers, for an extension of time.

We expect to be able to bring a complete response to your request by April 26, 1985, which is 120 days from the date of our receipt of your request.

Very truly yours,

  
J. Ted Enos  
Manager, Licensing
