Gentlemen:

SUBJECT: REPORT NOS. 50-259/84-12, 50-260/84-12, AND 50-296/84-12

On March 26-30, 1984, NRC inspected activities authorized by NRC Operating License Nos. DPR-33, DPR-52 and DPR-68 for your Browns Ferry facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities violated NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are presented in the enclosed Notice of Violation. Under usual circumstances, these violations would result in NRC civil penalty action. In this case, the State of South Carolina having issued a \$1,000 civil penalty, no NRC civil penalty action will be taken. However, you are required to respond to the enclosed Notice.

In accordance with 10 CFR 2.790(a), a copy of this letter, its enclosures, and your reply will be placed in NRC's Public Document Room upon completion of our evaluation of the reply. If you wish to withhold information contained therein, please notify this office by telephone and include a written application to withhold information in your response. Such application must be consistent with the requirements of 2.790(b)(1).

The responses directed by this letter and the enclosures are not subject to the clearance procedures of the Office of Management and Budget issued under the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

(Original signed by HCDance)
