

ENCLOSURE 1

NOTICE OF VIOLATION

Alabama Power Company
Farley Units 1 and 2

Docket Nos. 50-348 and 50-364
License Nos. NPF-2 and NPF-8

The following violation was identified during an inspection conducted on June 25-29, 1984. The Severity Level was assigned in accordance with the NRC Enforcement Policy (10 CFR Part 2, Appendix C).

Technical Specification 6.11 requires that procedures for personnel radiation protection shall be adhered to for all operations involving personnel radiation exposure.

Contrary to the above, procedures for personnel radiation protection were not adhered to as follows:

- a. Although licensee procedure FNP-O-RCP-740, paragraph 8.8 requires that evaluations of TLD and pocket ion chamber dosimeters be performed for discrepancies greater than 30 percent and 100 millirem, no such evaluations had been performed by the licensee for identified TLD and dosimeter discrepancies during the period October, 1983 to June, 1984.
- b. Although licensee procedure FNP-O-RCP-112, section 9.0 requires that maintenance for the containment breathing air system be performed in accordance with the vendor installation and operating instruction, the licensee had not performed annual filter replacement on the containment breathing air systems as specified by the vendor instruction since the units were first operated in June, 1980 for Unit 1 and October, 1982 for Unit 2.
- c. Although licensee procedure FNP-O-RCP-28, paragraph 4.1 requires that all personnel frisk after exiting a contamination control zone, two licensee employees who exited a contamination control zone on the 155 foot elevation of the Unit 1 auxiliary building did not perform a whole body frisk.

This is a Severity Level IV violation (Supplement IV).

Pursuant to 10 CFR 2.201, you are required to submit to this office within 30 days of the date of this Notice, a written statement or explanation in reply, including: (1) admission or denial of the alleged violation; (2) the reasons for the violation if admitted; (3) the corrective steps which have been taken and the results achieved; (4) corrective steps which will be taken to avoid further violations; and (5) the date when full compliance will be achieved.
