Project Directorate I-4
Div. of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

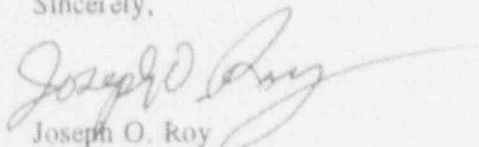

Dear Mr. Rooney:

RE: Service List

Thank you for your reply dated September 15, 1992. It is our intention to replace Mr. Monard with Mr. Graham. Mr. Graham is now reviewing all correspondence on our nuclear projects (Millstone 3 and Seabrook). As you surmise, the need for additional copies will be handled internally.

Thank you for your cooperation.

Sincerely,

Joseph O. Roy
Manager of Operating Projects
