Docket Nos. STN 50-498, STN 50-499
Revision of Emergency Action Level Tables

Reference: Correspondence from William J. Jump (HL&P) to NRC
Document Control Desk, dated April 28, 1992
(ST-HL-AE-4070)

Houston Lighting & Power Company (HL&P) submits the attached revision to clarify several areas of the South Texas Project Emergency Action Level Tables. This is a modification to the information contained in the referenced correspondence.

Upon review by the NRC Region IV office of the referenced submittal, several questions were raised about the rationale for some of the proposed changes. During discussions with Mr. Nemen Terc of the NRC Regional Office on July 15, 1992, these questions were resolved. As a result, some modifications to the original revision have been made. The State of Texas and Matagorda County have reviewed and concur with these modifications. Subject to further comments, we request that the revised Emergency Action Level Tables as modified be approved for use at the South Texas Project.

If there are any questions, please contact either Mr. M. A. Covell at (512) 972-7479 or me at (512) 972-7205.
