I was recently informed that as of 7-20-84, GEO Reliability Services will be closing its facility located at 76 Treble Cove Road, North Billerica, MA. The assets have been sold to another company. This includes approximately 9.7 curies of Kr^{85} gas, activity measured on 1-30-84 and 1 Kr^{85} sealed source not exceeding 1 millicurie, both of which are stored presently in our Radiflo Mark IV leak testing unit. I realize that this is short notice, but hope you understand we recently received word of this ourselves. If you have any questions please feel free to call myself or my R.S.O. I assure you all safety procedures and regulations associated with our License will
