**PURDUE  
UNIVERSITY** SCHOOL OF NUCLEAR ENGINEERING

February 7, 1985

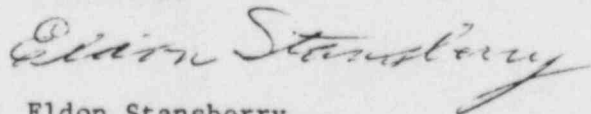

Mr. Cecil O. Thomas, Chief  
Standardization & Special  
Projects Branch  
Division of Licensing  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Thomas:

This is in answer to your letter of November 7, 1984 concerning the Emergency Plan for the Purdue University Reactor. The plan has been implemented as of this date with the exception of section 9.2 Conduct of Drills and Exercises and section 9.3 Critiques of Drills and Exercises.

Radiation Control has hired new personnel to conduct retraining of the off site units such as the Purdue University Police Department and the Purdue University Fire Department. As their duties apply to the emergency plan. At the conclusion of the retraining, a practice scenario for supervisory personnel will be scheduled to minimize interference with normal operations. This practice scenario will be conducted prior to August 23, 1985. A full scenario will be conducted by August 22, 1986.

Sincerely,

Eldon Stansberry  
Assistant Laboratory Director  
and Reactor Supervisor
